

# Maintenance Forum 2014

**“Maintenance” of our assets - One of the most urgent issues in South Africa!**

**Are we equipped to deal with it?**

**Do you understand the impact of maintenance to the bottom line?**

Join the Maintenance Forum 2014, 28 – 29 August 2104. This two day workshop will strive to provide solutions to all the prominent Maintenance and Asset Management challenges the maintenance fraternity is currently grappling with. The facilitators will be leading South African experts in their field like Jasper Coetzee (UP), KarlwimHeese (PPC Cement), Johan Möller (UP), Henri van der Walt (York Timbers), Wikus van Niekerk (SU), Erna Gerrits (UP) and Gerhard Holtzhausen (HLAKANI).

The workshop will be held at one of our prime resorts, Mount Amanzi <http://www.mountamanzi.co.za/conference.html>, and the cost will include accommodation and a braai on the first evening. This relaxed atmosphere will provide ample opportunity to network with individuals in the maintenance industry.

See [www.maintenanceforum2014.com](http://www.maintenanceforum2014.com) for registration and programme details.
